

Business Overhead Expense Disability Income Insurance *for Truck Drivers*

AssurityBalance®

Assurity®
Life Insurance Company

You're vital to the success of your business – it could fail if you become disabled.

You work hard to build and maintain your business. As a result, the flexibility and control you have as a business owner are worth the effort! You know the continued success of your business depends on your active involvement. In the future, your participation could be severely limited because of a disability. If you were injured or ill and unable to drive for an extended period of time, would your business survive?

What is the chance a disability will occur?

Unfortunately, the frequency that a serious disability – the type that can prevent you from working for an extended length of time – occurs is more often than you might guess. Three in 10 workers entering the work force today will become disabled before retiring. And, over 8.3 million workers are receiving Social Security Disability benefits, 4.9 million of which are ages 18 through 64.* There is a high risk of losing the business you've worked so hard to build!

Business Overhead Expense Insurance

We've designed AssurityBalance Business Overhead Expense Insurance (BOE) to help protect your business, your truck and your home in the event of your disability. BOE's advantages include:

Solution

- Coverage of your business's general operating expenses, including truck payments if you become disabled and cannot work.
- Affordable premiums that may be tax deductible.**
- Waiver of Premium and Rehabilitation Benefits available.

Covered Overhead Expenses

This policy pays for usual business operating expenses that are generally accepted as tax deductible.

Examples of these expenses include:

- ▶ Truck payment
- ▶ Vehicle insurance
- ▶ Licensing fees
- ▶ Utilities (electricity, telephone, gas and water)
- ▶ Furniture and equipment
- ▶ Business insurance premiums, including property and liability insurance
- ▶ Accounting, billing and collection service fees
- ▶ Property and payroll taxes
- ▶ Interest payments on debts
- ▶ Other fixed expenses.

Choice of Elimination Periods

Choose between 30, 60 and 90 days.

Choice of Monthly Benefit Amount

Your monthly benefit may be chosen from a minimum of \$500 up to a maximum of \$2,500. Maximums apply according to your occupation classification and current monthly covered expenses.

One-Year Benefit Periods

The benefit period can extend up to 12 months.

Accumulating Benefit

If your business's monthly covered expenses are more than the monthly benefit, the excess expenses may be carried forward and paid in a later month where covered expenses are less than the monthly benefit.

Waiver of Premium

Your policy premiums are waived following 90 days of total disability.

Rehabilitation Benefit

If you become totally disabled, this plan may help pay the cost of a rehabilitation program.

* Social Security Administration, *Fast Facts and Figures, 2013*

** Tax questions should be referred to your tax advisor.

How will your business expenses be paid if the next disability is yours?

If your ability to drive was suddenly curtailed due to a disabling illness or injury, what revenue-generating options are available to help meet your continuing business expenses?

Can you borrow?

Lenders may not take a chance on a business with a key employee not able to generate steady revenue. Also, how would you be able to repay a loan? A repayment plan may further strain your company's earnings.

Will creditors cooperate?

It's possible that limited-time credit arrangements could be made, but eventually these obligations would have to be paid. Consider the importance of keeping up with employee paychecks, mortgage or rental payments and utility bills.

If a future disability is serious enough to keep you from work for at least 90 days, it's quite possible you would be unable to work for considerably longer. The data on the chart at right is also important to note!

Guaranteed renewable to age 65, Assurity's BOE is the right plan to secure the future of your business.

Chronic diseases (such as heart disease, cancer and diabetes) are leading causes of disability in the U.S.

Chronic diseases account for 70 percent of all deaths in the U.S. each year.

These diseases also cause one or more limitations in daily living for almost 25 percent of Americans.
